
Full-circle forward predictions under recorded pressures; no feedback control
Nominal model
Constant velocity
Nominal + ridge
Kinematic + ridge
Nominal + GRU
PCC X (mm)
PCC Y (mm)
Requested circle
Measured response (PCC)
Predictor output
Requested phi = 1 rad
Circle 1: 259-279 s simulation
20.23 s physical duration
Measured initialization only
No state resets during circle
